

# TOTAL ANARCHY

Welcome to *Pavilion City*

## Game Manual (Version 1)

Pavilion City...

...a former paradise now consumed by corruption and violence

Three warring factions are vying for total control

Everybody seems to be trying to kill you

Can you survive and make it to the top?

Do whatever you have to do!

# Getting Started:

If you stand any chance of survival in Pavilion City, you'll need to know the basics.

You'll find yourself at the Main Menu when you begin:

- NEW GAME - Begin your adventure for the first time, or start a new adventure.
- CONTINUE - Load your saved game.
- SETTINGS - Change graphical and gameplay settings. Note: Some of these only take effect if you restart the game.
- CONTROLS - View control scheme and switch between Gamepad/Keyboard modes.
- CHEATS - Tired of playing fair? View cheat codes.
- EXIT - Had enough already? Escape via this route.

# Game Controls:

Total Anarchy has two control modes: Keyboard & Mouse, and Gamepad.

Most XInput gamepads are supported and will be detected automatically. Before starting the game, you should connect your gamepad to your PC. When in the Main Menu, go to CONTROLS and select the Gamepad control mode. If successful, your controller model name will appear on screen.

You cannot use both modes simultaneously. For switching back to keyboard/mouse while your gamepad is connected, you can select the desired mode in the pause menu or main menu.

Playstation 4 controllers are not supported by default and you will need a third party tool such as [DS4 Windows](#).

## Bars:

- **The Naked Bishop**

Location: Stanmer

Enjoy frothy IPAs and stouts that will give you the shits for days afterwards. Now serving ready salted crisps. Gourmet!

The Naked Bishop is known to buy (*ahem*) alternatively procured alcohol. Sell your booze back to the pub for a tidy profit!

- **Pigeon Hotel Bar**

Location: East City Centre

The hotel bar is welcome to all guests and visitors at the Pigeon hotel. Enjoy a watery cocktail while watching the cricket on the 30 inch colour CRT, or join in the hourly bingo tournaments and win a novelty pencil sharpener!

- **Weathered Poon**

Location: Blackgate

Come for the football, stay for the racist banter. Not recommended for broadsheet readers or anyone under 50. Tourists can just fuck right off.

PIGEON HOTEL

## Clubs:

- **Entropy [FOR SALE!]**

Location: East City Centre

Pavilion City's seminal nightlife experience.

Get wrecked on molly and dance all night to DJs

spinning a mix of Trance, Deep House and Big Beat. Let's get trendy! Over 25s better stay away.

- **Club Snowcloud**

Location: West City Centre

A rival club to Entropy, Snowcloud was founded in 1987 and hosts a variety of Eurodance and Happy Hardcore nights.

It's a bit of a sausage fest, but you'll be too fucked off your face to notice.

- **Plump Kitten**

Location: South City Centre

Girls Girls Girls! Did we mention they're nude? Pavilion City's famous strip club. Performers are asking if patrons can please throw banknotes instead of pound coins.

ENTROPY

PLUMP KITTEN

## Entertainment:

- **Beach Corp Records [FOR SALE!]**

Location: South Redlyn

The office of Pavilion City's most famous record label. The label has financial woes due to most of the signed acts turning up murdered in recent months. They are currently looking for a buyer to hopefully bring back good fortunes.

- **Ultrascreen Cinema [FOR SALE!]**

Location: South Blackgate

A historic picture house since the '30s. Offering the cultural delights of worldwide arthouse films for you to stare at for hours.

- **The Hotline Cafe [FOR SALE!]**

Location: South Coast

For those of you 'cyber-freaks' jacked in on this new 'world wide web' thing, this is apparently an establishment that supplies it. Now in partnership with Eric's Ethernet Emporium!

### Accommodation:

- **Empire Tower**

Location: Blackgate

Well furnished rooms are always available for very agreeable rates at the Empire Tower. Suites are priced starting from £500 per night. This price also includes parking.

EMPIRE TOWER

- **Pigeon Hotel Suites**

Location: East City Centre

Luxury suites are available starting from £1000 per night, offering a beautiful sea view across the south coast. A very convenient location as close as possible to all the nightlife action!

PIGEON HOTEL

### Vehicle Services:

- **Blink Respray**

Location: Various locations around town

We don't know how they do it, but these guys can repair quite severe vehicle damage in moments. For just £500, they'll fix any body damage, change your tyres, extinguish any engine fires and provide a complimentary new paint job!

- **Cars 4 Cash**

Location: Various locations including North Stanmer

There's good money to be made in selling cars, and these buyers aren't too sniffy about the origin. Cars 4 Cash will pay out handsomely for fast cars in good condition.

- **Ablative Armour**

Location: Various locations including North Stanmer

Perfect for those of you who need extra vehicular protection, Ablative Armour will enhance your car's windows and chassis to become virtually bulletproof. It comes at a fair cost, but it's worth considering if you find yourself a target.

- **High Impact**

Location: Various locations including East Redlyn

We're not sure why this service is so popular, but for a price you can pay to have your car's weight and strength enhanced, allowing it to shove other cars out of the road with ease. Try not to use it for evil purposes!

- **Anarchist Surplus**

Location: Nearby the Marina

A classic bomb shop... or so we've been told. Drive into the garage to fit the explosive. Press X at any time to detonate it, and we mean ANY TIME! Make sure you keep a safe distance away.

## Retail:

- **Speedmaster Car Showroom**

Location: South Wroxeter

If you're looking for a fancy new ride, check out the selection at the Speedmaster Showroom. All the latest Menchwagen and Sokudo models make it here first. Just make sure you pay in full before driving away.

- **Fagz 'n' Magz Newsagents**

Location: In Stanmer and also around the City Centre  
All the classiest lads mags and finest superking cigarettes are available here. Open 24/7 for added convenience. If you have a surplus of stolen cigarettes, the newsagents will buy them from you for a variable exchange rate.

- **Tufters**

Location: West City Centre

Good quality hunting gear. Apparently, hunting gear also constitutes semi-automatic weapons and sawn-off shotguns. We're not sure exactly how many hunters actually frequent Tufters, but business has certainly been booming since the recent rise in gang violence.

- **Barry's Tools**

Location: Shops in South Blackgate & South Redlyn  
Barry Higgins is a well renowned name around town. He sells a variety of power tools and such, but if you ask nicely he'll show you the 'forbidden' selection of tools (that are actually high powered automatic weapons.)

- **Demolitionist Discount Store**

Location: South Blackgate

A great resource for construction workers looking for explosive means to clear rocks and debris. If you need something that makes a big bang, this is the way to go. Also great if you need something to set something else on fire.

- **Drome Video Store**

Location: Blackgate

The city's best video rental store. Now stocking DVDs! The owner is a bit weird, but he has an unparalleled selection of '80s sci-fi horror and a vast adult section to get totally lost in.

- **Wroxeter Arcade**

Location: Blackgate

It's a retail paradise at Pavilion City's largest shopping centre! Notable shops inside are Patel's Synth's, the Wellness Pharmacy (for all your painkiller needs) and a metric fucktonne of travel agents.

## Other Services:

- **Blackgate Launderette [FOR SALE!]**

Location: Blackgate

We all have dirty laundry, and what better place to take it than the self-service Launderette? It's a vital yet uninspiring establishment that is often targeted by protection rackets.

- **Magpie Pawn**

Location: Wroxeter

Waiting patiently for the next economic crash, Magpie is a long-standing gold trader that will happily buy

any surplus gold and other jewellery from you without asking too many questions about the origin. Gold tends to increase steadily in price, so we recommend holding on to it for a while before eventually selling.

- **Instacam Photos**

Location: Blackgate

Perhaps one day in the future we'll be able to develop our photos at home, but for now the Instacam 1 hour service is our best option.

## Vehicle Guide

### **Nix**

Performance: 4  
 Manufacturer: Hook  
 Type: Hatchback  
 Value: 500  
 Model Year: 1996

*A trendy and economic option for people with short legs. Very popular with Letting agents. Doesn't pick up a lot of speed but is very easy to park.*

### **Doraibu**

Performance: 5  
 Manufacturer: Vornehm  
 Type: Saloon  
 Value: 800  
 Model Year: 1999

*With elegant curves and an in-built CD player, this is a top choice for yuppies looking to get taken seriously. Not the fastest car but easy to control, unlike your ego.*

### **Myriad**

Performance: 4  
 Manufacturer: Menschwagen  
 Type: Estate  
 Value: 800  
 Model Year: 1995

*Providing the comfort of a saloon with the luggage capacity of an SUV, this car is perfect for family trips to the dump. Precise handling allows for a safe drive, even when you have four screaming kids in the back.*

### **Sugai**

Performance: 7  
 Manufacturer: Lucentair  
 Type: Sports  
 Value: 1200  
 Model Year: 1998

*Nimble handling and a great top speed will provide a thrilling ride for those who can afford a car as decadent as this. You won't be disappointed.*

### **Rex**

Performance: 2  
 Manufacturer: Hook  
 Type: Van  
 Value: 600  
 Model Year: 1997

*The latest in the popular Rex series is a van that will provide years of loyalty and reliability. With excellent transporting capabilities, you'll see these favoured by both light and heavy industries.*

### **Chikara**

Performance: 3  
 Manufacturer: Conduire  
 Type: Van  
 Value: 500  
 Model Year: 1993

*For big families that don't want a gas guzzling SUV, here is the alternative. You won't get anywhere fast with this, but you will get there after several toilet stops.*

### **Hackney**

Performance: 5  
Manufacturer: United Motors  
Type: Public Service  
Value: 500  
Model Year: 1969

The Hackney cab is a beloved national icon. You can pay extortionate rates to ride in the back and sit in traffic, or commandeer the driver seat and pick up fares for yourself!

### **Reliant**

Performance: 5  
Manufacturer: Snaab  
Type: Estate  
Value: 600  
Model Year: 1986

It's unexciting and boxy but perfect for families on middle-class incomes. These things are going to remain popular for decades due to their sheer reliability. Approach sharp turns with caution.

### **Tick**

Performance: 4  
Manufacturer: Conduire  
Type: Hatchback  
Value: 300  
Model Year: 1965

A design classic. Particularly popular in European cities with narrow streets and limited parking spaces. Often driven by students and hippies. Just don't expect it to pass its MOT test.

### **Orbit**

Performance: 7  
Manufacturer: Lucentair  
Type: Coupe  
Value: 1000  
Model Year: 1994

Nippy and zippy, this car is great fun to drive. Drifters love this model. Very effective at evading pursuers and extremely customisable. Comes in a range of bright colours.

### **Novanta**

Performance: 6  
Manufacturer: Lucentair  
Type: Hatchback  
Value: 800  
Model Year: 1982

Designed at a time when sharp angles were sexy. The very powerful engine lets this ride feel like a muscle car. This will pick up a lot of speed, but watch yourself on tight bends.

### **Tsuki GT**

Performance: 9  
Manufacturer: Kyori  
Type: Sports  
Value: 2000  
Model Year: 1990

Mid-life crisis and the recent divorce hitting your confidence? Just buy one of these puppies and you'll feel self-assured again in no time. A stylish frame and leather seats compliment an excellent top speed.

### ***Prism***

Performance: 8  
Manufacturer: Sokudo  
Type: Sports  
Value: 1500  
Model Year: 1992

A panoramic sunroof and all wheel drive are included in this sleek performer. An excellent getaway vehicle. Comes in lots of pretty colours.

### ***Rubicon***

Performance: 8  
Manufacturer: Kyori  
Type: Sports  
Value: 1200  
Model Year: 1984

Engineered to impress with its unique angular design, this machine goes places fast. Comes in a variety of primary colours to make it extra conspicuous.

### ***Nucleon***

Performance: 7  
Manufacturer: Sokudo  
Type: Coupe  
Value: 1400  
Model Year: 1999

A brand new and exciting arrival to the streets of Pavilion City. Handles like a dream and gets up to a pretty good top speed. The police are keeping tabs on people driving these.

### ***Tokyo NX-5***

Performance: 9  
Manufacturer: Sokudo  
Type: Exotic  
Value: 4000  
Model Year: 1994

A rare and extremely expensive supercar imported from Japan. One of these is for sale at the Speedmaster Dealership along the Lotus line. It goes bastard fast.

### ***Police Xanadu***

Performance: 12  
Great for waging war on the seas! The Police variant of the Xanadu has dual forward facing machine guns which are perfect for taking out enemy boats.

### ***Police***

Performance: 7  
Manufacturer: Lucentair  
Type: Public Service  
Value: 1000

Used by the constabulary to effectively pursue criminals in high speed chases. Based on Lucentair's currently popular Orbit model due to its manoeuvrability and powerful engine. Comes with a variety of sirens.

### Havana

Performance: 5  
Manufacturer: Hook  
Type: Coupe  
Value: 2000  
Model Year: 1979

This is the signature car of the Pavilion City Hooligans. Always comes in the characteristic Hooligan electric blue, these can be found causing trouble all over town.

### Torero

Performance: 6  
Manufacturer: Hook  
Type: Pickup  
Value: 500  
Model Year: 1985

This truck is the signature vehicle of the paramilitary guerillas that operate around Pavilion City. It's been modified to allow a faster top speed. Driving one of these can get you arrested as a suspected terrorist pretty quickly.

### Borealis

Performance: 5  
Manufacturer: Hook  
Type: Muscle  
Value: 1500  
Model Year: 1976

This is the signature car of The Legion gang. Easily recognisable thanks to the custom paint job depicting flames. It's very loud and obnoxious. Understeer makes handling a bit tricky.

### City Rider

Performance: 1  
Manufacturer: United Motors  
Type: Public Service  
Value: 5000

Long, heavy and slow. Excellent for creating a road barrier, not so excellent at getting you anywhere fast. City Riders are Pavilion City's primary bus service. They never run on time, if they run at all.

### Ambulance

Performance: 6  
Manufacturer: United Motors  
Type: Public Service  
Value: 1000

Can be found parked outside hospitals. Very fast for its size, but will suffer from understeer. Anyone driving an Ambulance will receive a steady boost to their health.

### Nensho

Performance: 9  
Manufacturer: Sokudo  
Type: Motorbike  
Value: 5000  
Model Year: 1998

Motorbikes are more nimble than cars on the road, you'll go flying if you crash too fast.

## Weapon Guide

### 01 - Pistol

Now available at Barry's Tools

A common and inexpensive sidearm, used by law enforcement and criminals alike. Can fire off six shots before reloading.

### 02 - 45 Calibre

Now available at Barry's Tools

Heavier, more expensive and slower to reload than a normal Pistol - but far more powerful. This is the only handgun available that can kill enemies with just one shot.

### 03 - Silenced Pistol

Now available at Barry's Tools

Useful in situations that require stealth. It is as powerful as a normal pistol but it has a slower fire rate.

### 04 - Grenade Pistol

Now available at Barry's Tools

Small but deadly! Essentially a grenade launcher that fits in your pocket. This gun launches small explosive charges with a short range. Particularly useful at taking out pursuing vehicles when driving.

### 05 - Machine Gun

Now available at Barry's Tools

The least expensive fully automatic weapon available. This thing is cheaply made, has an unimpressive rate of fire and is wildly inaccurate.

### 06 - Automatic Pistol

Now available at Barry's Tools

Start a civil war with this fully automatic imported handgun! It's more expensive than the standard machine gun, but it is less erratic and has a slightly faster fire rate.

### 07 - Silenced SMG

Now available at Barry's Tools

Lightweight and agile, you'll be free to dart around while peppering your enemies with an insane rate of firepower. Just be sure to bring plenty of ammunition.

### 08 - Combat SMG

Now available at Barry's Tools

The professional's choice: combining the destructive power of an assault rifle with the compact portability of an SMG. Heavy law enforcement favour this weapon to take down armed criminals.

### 09 - Riot Shotgun

Now available at Tufters Hunting Gear

When you need a lot of stopping power, this pump-action shotgun will be there for you. Best used against short-range targets. Some vendors are known to sell these as 'legal' hunting weapons.

### 10 - Lupara

Now available at Tufters Hunting Gear

Controversially sold at Tufters for hunting wolves, but also very effective at crowd control with an impressive field of fire. Has a fairly slow reload, so make those shots count!

### 11 - Combat Shotgun

This fully automatic shotgun is rare, deadly and able to tear through armour and vehicles frighteningly quickly. A real threat!

### 12 - Dragoon

Now available at the Demolitionist Discount Store

This unique weapon goes like a firework from hell. It's fully automatic and each pellet can instantly kill enemies. One of the most powerful guns available, if you can afford the hefty price tag.

### 13 - Trench Sweeper

Now available at Tufters Hunting Gear

Available for gangsters that favour an oldskool piece with plenty of firepower. This is a signature weapon for many established crime families throughout Pavilion City's history.

#### 14 - Kalashnikov

An assault rifle so widely used it features on the flags of nations and has been the number one killer of capitalists since 1947. Channel your inner-revolutionary!

#### 15 - Assault Rifle

A lightweight and military grade assault rifle with high accuracy and a large magazine. It's hard to be outgunned while you're wielding one of these.

#### 16 - Advanced Rifle

This modern assault rifle has a blistering fire rate and immense projectile speed. Perfect for picking off enemies at long range.

#### 17 - Heavy MG

Now available at the [Demolitionist Discount Store](#)

This machine gun is designed to be mounted on tripods or helicopters but you can still effectively use it for shredding large groups of enemies or taking out vehicles.

#### 18 - Flamethrower

Does anyone smell BBQ? Or is it the smell of your enemies being roasted alive by a projection of hellfire. A terrifying weapon and very effective at short range.

#### 19 - Minigun

If all of the other weapons still don't satisfy your firepower needs, how about the minigun? Essentially capable of annihilating anything unfortunate enough to get within its range. Eats through ammunition like a bastard.

#### 20 - Missile Launcher

Now available at the [Demolitionist Discount Store](#)

For specialist demolition work, try out this puppy. It propels highly explosive rocket propelled grenades in whatever direction you point it. Just stand well out of the way!

#### 21 - Petrol Bombs

A cheaper make-shift option for anarchists and hooligans really looking to make a fiery splash. Essentially an ethanol filled bottle stuffed with a rag and lit on fire. Explodes upon impacting any solid object. The longer you hold down the left mouse button, the further you will throw.

#### 22 - Hand Grenades

A standard hand grenade. Just pull out the pin and lob it at something you don't like. Grenades will bounce against solid objects, so careful they don't come flying back your way before exploding.

#### 23 - Satchel Charges

You can use these to set explosive traps. Drop as many as you like, then press X, then BOOM!

#### 24 - Rocks

Can't afford proper weapons yet? In the mood for something crude? You can find plenty of rocks at the beach in Pavilion City. Remember, you can re-use rocks if you recover them after being thrown.

#### 25 - Bricks

Bricks can commonly be found at construction sites and, like rocks, are reusable after being thrown.

## Known Organisations

- **The A-22**

Left wing revolutionary militants who hide out in the woods. These guys will typically only get nasty with you if provoked first. Try not to mention anything to do with politics around them (they'll just kick off about how CD players are enslaving mankind.) They drive around in pickup trucks.

- **Pavilion Albion Hooligans**

A ragtag group of football hooligans who are too thick to realise they are being hired into criminal organisations. Hooligans can be found everywhere causing trouble. They have set up bases of operations at various locations around town, which we'd recommend to avoid at all costs.

- **The Legion**

A relatively new group. We're not sure who is supplying these particularly nasty thugs, but they're well funded and heavily armed. They seem to be vying for a power grab, which is rather worrying for everyone.

- **The Territorial Army**

The army are a gang in their own right and have taken to patrolling the northern areas of Pavilion City, looking to try and control the massive gang conflict which is still rumbling on. When the police become out of their depth, the army will step in to lend a hand.

- **Law Enforcement**

If you start causing trouble, the police will try to apprehend you. County police will be the first responders. Continue misbehaving by resisting arrest and you'll eventually come up against the armed riot squad, special forces and eventually the army.

## Troubleshooting / FAQ

Q: How do I get non Xinput controllers to work, e.g. PlayStation 4 gamepads?

A: Download the free software DS4 Windows - <http://ds4windows.com/>

Q: The game is stuttering in full screen mode!

A: Try selecting Windowed mode in the game settings as this can increase

A: Try enabling 'Frame Skip' in the game settings. This reduces the frame limit from 60 to 30.

Q: How long ago was this project started?

A: I first started developing this game as a teenager, somewhere around the year 2007. At the time I was using Game Maker 6. A long time later, in 2016, I decided to start making the project again using Game Maker Studio 1.4.

Q: Will this game be ported to other operating systems e.g. Android?

A: Unlikely I'm afraid. It's been made using a legacy edition of Game Maker Studio and the D3D functions sadly aren't included in Game Maker Studio 2, making it almost impossible to port to other platforms. With certain 3rd party tools you can emulate this game on Mac and Linux with varied results.
